

Wellsville-Mendon Watershed Plan Environmental Assessment

Public Scoping Notice

Project Information

The United States Department of Agriculture Natural Resources Conservation Service (USDA-NRCS), with assistance from Cache Water District as the project sponsor, and several co-sponsors including Cache County, Wellsville City Irrigation Company, Wellsville City, Mendon City, and Wellsville Mendon Conservation District, are considering proposed improvements within the Wellsville Canyon and Threemile Creek Watersheds, in Cache County, UT.

The proposed project would prevent or reduce flooding, enhance wildlife habitat, and improve irrigation water delivery.

Conceptual improvements may include:

- Flood Prevention
 - Culvert replacements
 - Channel stabilization measures
 - Detention basins
 - Flood diversion structures
- Agricultural Water Management
 - Pressurized secondary irrigation system to improve reliability of irrigation water supply and provide sustainable conveyance system
 - Water control structures
- Recreation
 - Opportunities at Wellsville Reservoir

Project Timeline

The project is in the scoping phase of the environmental process to identify issues and resource concerns. Technical studies are scheduled to take place during the summer/fall of 2021, with a Draft Watershed Plan - Environmental Assessment to be circulated for review in 2022.

Public Scoping Meeting

As part of the Environmental Assessment (EA), the public is invited to attend an online public scoping meeting held by NRCS. A recording of the meeting will be available on the project website.

Tuesday May 11, 2021
6:00 p.m.
